

**PULASKI MASTER GARDENERS – WILD SIDE FARM PLANT LIST
HERBS**

Price	Name	Description	
	Hyssop	Hyssop is a beautiful, well-behaved, easy-to-grow member of the mint family that deserves a place in any herb garden. Older plants form neat, rounded bushes 1 to 3 feet high; younger plants are looser in form. The stiff, erect, typically square stems bear opposite, linear, medium green leaves 1 to 1 1/2 inches long. Tufts of smaller leaves are borne in the leaf axils. Plants are evergreen where winters are mild. Clusters of six to fifteen violet-blue, pink, or white flowers in the upper leaf axils form dense spikes. The two-lipped, tubular corolla is 1/2 inch long and has four protruding stamens that match it in color. The calyx is tubular with five teeth. Plants bloom from summer to fall.	
	Sage		
	Lemon Grass	Lemon grass is widely used as a culinary herb in Asian cuisine and also as medicinal herb in India. It has a subtle citrus flavor and can be dried and powdered, or used fresh. It is commonly used in teas, soups, and curries. It is also suitable for use with poultry, fish, beef, and seafood.	
	Basil – Sweet	Sweet basil (<i>Ocimum basilicum</i>) is the most familiar basil, and the most widely grown in the United States. It is considered the basic basil. Medium-green, smooth, shiny leaves have a soft appearance. Characterized as Mediterranean or European-type basil, the taste is sweet, floral and delicate, with slightly minty notes, an anise-like aroma and clove-like undertones. Use leaves fresh or dried.	
	Basil – Genovese	"Genovese" basil (<i>Ocimum basilicum</i> "Genovese") is a variety of sweet basil that originated in Italy. This specialized European strain has less of a tendency to become bitter after long, slow periods of cooking. The plant is also less likely to bolt, meaning it is less likely to flower quickly in hot weather. Flowering stops the vegetative growth of the basil plant. "Genovese" has a reputation for making the best pesto, as well as the best "insalata caprese," which is dish consisting of tomato slices topped with mozzarella cheese and fresh basil leaves. Leaves are large, bright green and crinkled.	
	Basil - Thai	Thai Basil (<i>Bai Horapa</i>) has small, long and narrow green leaves and purple stem. The subtle clove or licorice (anise) flavour adds an aromatic Thai flavour to any Asian dish. It can be grown in a container or in ground.	
	Sorrel	Sorrel is a very tangy, acidic herb. Its sour taste comes from oxalic acid, which also gives rhubarb its tartness.	
	Aloe Vera		

PEPPERS - SWEET

	Bell – Asst. Colors		
	Carmen (hybrid)	A distinctive horn-shaped Italian pepper, with a delightful flavor that's noticeably sweeter than other varieties, raw or cooked. Firm, tapered fruits grow to about 5 oz., 6" long and 2-1/2" wide at the shoulders, maturing green to red on upright, leafy plants. Excellent yields, widely adaptable, reliable and easy to grow.	
	Paprika	Make paprika powder from mature peppers. Dry them by hanging or in a dehydrator and then crush and grind them with mortar and pestle or food processor. They are also good eaten fresh, with a mildly pungent, sweet flavor.	
	Banana – (Heirloom - Hungarian)	Produces abundant 6" long Hungarian-type peppers. Attractive yellow color eventually turns crimson and flavor is sweet and spicy.	
	Ajvarski (Heirloom)	Roasting pepper from eastern Macedonia. Two-foot, stocky plants are covered in 6- to 7-inch, broadly wedge-shaped pods that ripen green to deep, rich red.	
	Peperone de Cuneo (Heirloom - Italian)	Tomato shaped sweet peppers in red and yellow. Very productive, thick-walled and fine flavored	
	Paradicsom Alaku Sarga Szentés Pepper (Heirloom – Hungarian)	Yellow, flat, ribbed, pumpkin-shaped fruit have the tremendous flavor that peppers from Hungary are famous for. The flesh is very thick, crisp and juicy.	
	Odessa Market (Heirloom - Ukrainian)	A great tasting, top-shaped pepper that starts out bright green, turning orange and then red. Short plants produce fruit all summer, and this variety is dependable even in the north. A good variety for growing in pots.	
	Oda (Heirloom)	Very strong, compact plants cranks out tapered, pointed bells from early summer on. The fruits are the loveliest shade of plum purple, ripening to a lustrous red-brown. Crisp, juicy, thick-walled fruits are very sweet. The short stature make it a great choice for cloche- or low-tunnel production.	

PEPPERS - HOT

	<p>Ancho (Heirloom)</p>	<p>This is the primary Poblano-type pepper. It is nearly the size of a regular bell pepper but flattened and pointed at the end. An attractive shiny green with a thick flesh which makes it ideal for stuffing. Pungency is generally quite mild and green although it will eventually redden.</p>	
	<p>Jalapeno – Craig’s Grande (Heirloom)</p>	<p>A big, fat jalapeno that is perfect for making lots of salsa. Perfect for anyone who loves jalapenos. It has thick, flavorful, hot flesh.</p>	
	<p>Cayenne Long Thin (Heirloom)</p>	<p>Slender, long peppers turn bright-red and are very hot. The 2-foot tall plants are vigorous and productive. This heirloom has been popular many years for drying, using as a spice.</p>	
	<p>Serrano Tampiqueno (Heirloom)</p>	<p>Attractive fruits are club shaped smooth, about 1-1/2", with medium thick flesh. Peppers change from green to bright red and are very hot at both stages. Excellent for drying, pickling, salsas, sauces, stews and much more.</p>	
	<p>Hungarian Hot Wax (Heirloom)</p>	<p>A Hungarian heirloom that is excellent for short season areas, very popular for canning and pickling. Medium to very hot fruit are light yellow in color; sets fruit over a long season.</p>	
	<p>Tobasco (Heirloom)</p>	<p>This famous heirloom was introduced into Louisiana in 1848 and became the main ingredient in Tabasco Pepper Sauce. This pepper is very hot and has a delicious flavor. The plants grow up to 4 feet tall and are covered with small, thin peppers.</p>	
	<p>Anaheim (Heirloom)</p>	<p>Delicious mildly hot flavor, excellent for roasting or frying; good yields of very large chili peppers.</p>	
	<p>Jalapeno – Tam (Heirloom)</p>	<p>A very tasty mild Jalapeno type, with the same delicious flavor, but a lot less heat.</p>	

TOMATOES

	<p>Martino's Roma – Determinate</p>	<p>Good for sauces, salsas, pastes, farmer's market--bring it on! Richly flavored, meaty, pear-shaped fruits set heavily on compact plants with rugose, dark green foliage. So heavily productive, the 2 oz., 3" fruits tend to drop from the vine when ripe. Most often used for cooking, but perfectly suited to eating fresh.</p>	
	<p>Stupice – Indeterminate Heirloom (Czechoslovakia)</p>	<p>A native of Czechoslovakia, where its extreme earliness, tolerance to cold, superior flavor and high yields have earned it worldwide attention. Tests show an astounding average of 87 fruits picked per plant. Fruits are sugary sweet, weighing 1 to 2 oz.</p>	
	<p>Sungold - Indeterminate Cherry</p>	<p>Great "tomatoey" flavor and very sweet. Fruits are nearly 1 inch round globes which turn a very attractive golden orange when ripe. Productive vines provide very high yields</p>	
	<p>Marianna's Peace – Indeterminate (Heirloom)</p>	<p>Pinkish-red, beefsteak-type, 1 to 2 pound fruits have thick red flesh, with a perfectly balanced sweet, yet acidic flavor. A potato-leaf variety that will produce good yields of fruits.</p>	
	<p>Box Car Willie</p>	<p>Prolific yields of smooth, reddish-orange fruits averaging a large 10 to 16 oz. With an old-fashioned flavor, these high-yielding, multi-use tomatoes will last throughout the season and are ideal for canning, freezing, or for home-cooked meals. Crack-free and disease resistant.</p>	
	<p>Maralinga – Dwarf Indeterminate</p>	<p>Tree-type — The rugose, regular leaf dwarf produce heavy yields of rich brown (yellow skinned black) tomatoes with deep crimson flesh that range between six to twelve ounces. The flavor shares the typical intensity of the best black tomatoes - rich, intense and memorable.</p> <p>'Maralinga' is a "Dwarf Tomato Project" variety that originated with a cross between an early generation selection from the "Sleepy family" called 'Wilpena' and 'Cherokee Purple' made by Patrina Nuske Small in 2008 and named "Plentiful."</p>	
	<p>Tanunda Red – Dwarf Indeterminate</p>	<p>"Tanunda Red" originated with a cross between an early generation Sleepy selection called Wilpena and Cherokee Purple made by Patrina Nuske Small in 2008 and named Plentiful. Tanunda Red was selected and named by Patrina. The vigorous regular leaf dwarf plants produce excellent yields of smooth oblate red fruit that range from 4-10 ounces. The flavor is rich, well balanced and delicious.</p>	
	<p>Wild Boar Pink Berkley Tie-Dye – Indeterminate</p>	<p>Large beefsteak fruits are the color of port wine with metallic green stripes and weigh 8 to 12 oz. Has excellent sweet flavor.</p>	

	<p>Sugar Lump – Indeterminate (Heirloom – German)</p>	<p>A sweet German heirloom that produces heavy yields straight through until frost. Clusters of 6 to 12 smooth, deep-red fruits, each averaging 3/4" to 1" in diameter. Excellent eating quality and flavor.</p>	
	<p>Rosella Purple – Dwarf Indeterminate</p>	<p>One of the dwarf varieties from the "Dwarf Tomato Project." Similar to 'Cherokee Purple' in color, size, shape and flavor but on a dwarf growing plant. Regular leaf, dark green rugose foliage, stout central stem, grows to three to four feet in height. Perfect for a large container or a small garden space. The fruits are oblate, ranging from six to twelve ounces, and ripen to a deep purple-pink color. Flavor is full, intense, balanced and delicious.</p>	
	<p>Stuart Desert Pea – Dwarf Indeterminate</p>	<p>The vigorous, rugose, regular leaf dwarf plants produce excellent yields of smooth, oblate, four to eight ounce, red fruits that have a pleasant, well-balanced flavor.</p>	
	<p>Tomatoberry Garden – Indeterminate Cherry</p>	<p>Fruit resemble large strawberries both for sweetness and appearance. It is great for eating right off the vine as is Sungold. Fruits are only about an inch across and notably heart shaped. Resists cracking and carries more sweet juice than most cherry tomatoes.</p>	
	<p>Opalka – Indeterminate (Heirloom)</p>	<p>A very large tomato that has the appearance of a bulls horn with massive solid fruit. Definitely a paste tomato with a dry texture and low seed count.</p>	
	<p>Great White – Indeterminate (Heirloom)</p>	<p>1-lb giant, creamy white fruit, this tomato is superbly wonderful. The flesh is so good and deliciously fruity, it reminds one of a mixture of fresh-cut pineapple, melon and guava.</p>	
	<p>Cherokee Chocolate – Indeterminate (Heirloom)</p>	<p>A stabilized version of Cherokee Purple, this 10 to 16 oz. mahogany-colored variety has excellent flavor and beautiful large fruit. Very productive plants are vigorous and yield a large harvest of these chocolate-colored tomatoes with the ample size and wonderful flavor associated with Cherokee Purple.</p>	
	<p>Lucky Swirl – Indeterminate Dwarf</p>	<p>The vigorous, high yielding regular leaf dwarf plants yield smooth oblate yellow fruit with red swirls, running between 6-14 ounces. The flavor is sweet, mild and very tasty.</p>	
	<p>Loxton Lass – Indeterminate Dwarf</p>	<p>The vigorous, productive regular leaf dwarf plant produces delicious orange smooth oblate fruit that range between 6-12 ounces, with a well-balanced, delicious flavor.</p>	
	<p>German Johnson – Indeterminate</p>	<p>Very large 1-2 lb fruits are deep pink, very flavorful and nearly crack-free.</p>	

	Lemon Boy – Indeterminate Hybrid	Lemon yellow, not golden in color. Highly adaptable plants yield large, deep oblate fruits, averaging 6 to 7 oz. and about 3-1/2" across. Out-yields all other "golden" tomatoes available. Mild flavored and adds an inviting color to salads.	
	Amish Gold Slicer – Indeterminate (Heirloom)	3 to 4" round slicer, that's been a trial favorite year after year. Fruits are blemish free, very firm and have excellent flavor. Great for fresh eating and canning. Extremely productive	
	First Prize Indeterminate Hybrid	Vigorous plants produce loads of delicious 10 to 12 oz. fruit, even when conditions are not ideal. First fruit mature early and low on the plant, which continues to bear tomatoes over a long season.	
	Beefmaster - Indeterminate Hybrid	One of America's favorites for the solid, meaty, flavorful red fruit that weighs up to 2 lbs. Vigorous vines and outstanding fruit taste and quality.	
	Container's Choice - Determinate	A space-saving container variety featuring unique rogose (wrinkled) leaves. Sturdy plants produce high yields of bright red, 6 to 8 oz. flattened, beefsteak-type fruits. Ripens uniformly with no green shoulders.	

OTHER PLANTS

	Okra – Annie Oakley		
	Okra – Jambalaya		
	Okra - Burgandy
